

# Gain control with a health savings account

**Your BlueSolutions plan gives you access to a health savings account (HSA) that gives you more control over the money you spend on doctors, drugs, and tests.**

It's a little like a retirement account for medical expenses. When you put money into your HSA, you get a triple tax advantage:

- The money you put in may reduce your taxable income
- Interest you earn in an HSA is tax-free
- The money isn't taxed when you spend it on qualified medical expenses

You can let the money in your HSA roll over, so you can use it next year or even in retirement. You never lose it.

## 2026 annual contribution maximums

Individual plans: \$4,400  
Family plans: \$8,750

*If account holder is 55 years or older, they can contribute an extra \$1,000.*
